00:00 Hussein S.: 很多人。

00:01 Passion C.: 嗨hello。

00:09 Hussein S.: 嗯，嗯。

00:11 Passion C.: There。 嗯，嗯。

03:13 Hussein S.: Yesterday, you told me that you guys have like do they pay on the color? That actually when they sign with you or do they have like A few days to test out the VA's.

03:33 Passion C.: So yeah, good question. They don't pay anything until they pick the VA and then so we actually. So for example when you pick up the A right and then we pay out of top market to the VA and then trend and everything to make sure they, you know, comply with the company culture and then understand what kind of the

03:50 Passion C.: Hi, I'm transcribing this call with my Tactiq AI Extension.

<https://tactiq.io/r/transcribing>

03:51 Passion C.: software they're gonna use and then your company sopes. So there's been a week on the training face and then they jump into work with the client. That's when they start paying.

04:03 Hussein S.: so, once the VA is onboarded with them, then they start paying

04:08 Passion C.: They yeah, lucky they started pay and then that's what we pay our salespeople as well.

04:14 Hussein S.: And how do you guys enjoy that the client is gonna end up paying

04:19 Passion C.: Um, so that's a good question a week at their credit card

when they actually

04:24 Hussein S.: Mmm.

04:25 Passion C.: have the VA on boarding. So we have a, you know, everything's written black and white. If they want to terminate the VA they of course they can, they just have to go for, like, 30 days notice. Yeah.

04:40 Hussein S.: Interesting, and the VA's. How do you guys make sure they don't go behind your back into work with Clients without us.

04:48 Passion C.: Other. Okay, so we have a software. We have human Appliance and then we have a software to monitor every moment. So there are flag. If there's anything. For example, I tell you I'm gonna just, I don't feel well, I'm gonna go to the hospital and then we can actually track that or I tell you, I'm gonna log it today, but it's not really saying You're working. Our, your clients were, It's not really showing that so we can track that. So there's a whole flacking system When the clients tell us, It said anything, It's not going well with the VA and then we're jumping, we'll do a delegation that we write a full report to make sure if you want to see, stay with the 78 and then they can improve. Or if you want to change to another one, so we can just film another world unlimited replacement. So that's also one of our guarantee.

05:38 Hussein S.: Okay. And It one sec, okay. Yeah. What about the Leadville? How is it? And with you guys? How many you guys have leads coming in consistently guys, working calls or What?

05:53 Passion C.: Um, we have at the moment. I think we have around like 8k. A thousand beats in the pool. It's a variation from opt-in. So we canceling, it running meta ads, Google ads with verification question. For example, what's your revenue size? And then we just give them different scores, right? And then if it's an email, is actually from a company don't matter. It's just a Gmail, right? So usually the setter or closer they do the job to do some research. But now we implied You can actually have the report already and then just like, I'll go in and just review, you know, the status of the week before they call. That's one string line all delete coming. The second is actually from scraping tools of wall as well. So we have different scraping tools that was great leads and then we verify them with an email to them. So for The closer. I think it will be ideal for them to send you know, emails workflows and making calls or text message just like everyone prefer a different communication style or you can give me any

kind of your experience suggestion.

07:09 Passion C.: We're open to that too.

07:12 Hussein S.: Okay. So how many guys do you think you'd need on the team right now? Like how many setters? And how many closes?

07:18 Passion C.: Um, we had four before and We are gonna just kind of like restart the whole thing because as we mentioned it's most of the software like for us is like 80% referral because we have kind of a really good word of mouth. so it's like very high closing rate but when we are just getting like pretty delete, we just kind of face a challenge like to be honest that Our closure are not really, you know, at the point or trying to find like different alternative phone numbers to call the leads. Because when you film the form, maybe you thought one of the phone number or you have a business number, you have like a different yelp number of, for example, That's what we expect if we hire someone. So we are actually interviewing some

08:08 Hussein S.: but,

08:09 Passion C.: people as well. That's one of our criteria for this time so we're constantly learning. So. Okay, to answer your question, we let go Are closer. So, we're gonna restart the whole thing from scratch again for.

08:25 Hussein S.: Okay, got you. Okay?

08:27 Passion C.: Yeah, so,

08:28 Hussein S.: So there's two things I can come in and help you guys do one, which is send you guys like a few setters. In a few closes, setters would be basically reaching out and then booking them on calls where the closer would come in and close the calls or we could come in as the agency, build out your entire sales team train them for seven days on your offer and how to basically work on your offer with you guys. And then we onboard them with you guys and would be consistently training them.

08:59 Hussein S.: So this dear one or option one, where we just send you guys, the closes and settings, you guys do training, and then make sure they stay on board or we build out the entire sales, team train them for seven days and then onboard them with you guys and consistently train them.

09:14 Passion C.: Mmm. I think if you don't mind can you just like give me more kind of like help me understand what you are doing and then your background. So we can kind of like jump into the discussion about where basically stranger

09:26 Hussein S.: Yeah, so my name is Hussein. I'm 22. I started out and take talk ads around four years ago. And then I was doing that here in Lebanon with businesses. We worked around 250 businesses in the course of three months And then I moved into my marketing agency where it was full stock marketing content and paid ads for local businesses and ecom businesses around the world. After that, we also pivoted more into B2B.

09:59 Hussein S.: And then worked for a year on there. So that's two years of my life and then I built info agency, we work with agency owners as well as coaches. We have them with the full done for you services. So content paid ads backend operations and funnel development from A to Z Then three months ago, I built out the sales agency, we started training, closes, and setters and placing them on offers.

10:29 Hussein S.: And I have. So that's what we're doing. Because I have a huge network and a lot of guys hiring so many people come to us, looking for closes and setters, and with my four year experience, I've closed a lot of deals, booked a lot of appointments, so I know how it works. I know I can train them, then we basically train them for a few weeks or months, depending on the skill set. And then we play some onto opportunities to basically put their skill sets to work.

10:58 Passion C.: That is very impressive because I like 10 years older than you I didn't know like What else do we want when I was like 22. Okay I'll quickly question for your marketing agency and closer to six agency. What's like the revenue size monthly?

11:13 Hussein S.: Okay, for the marketing agency, we've pay almost combined it with then for agency. So, where we work with coaches and agency owner, specifically across these two agencies we've been doing for the past three months around, 190k per month in revenue,

11:31 Passion C.: Mm-hmm. Oh yes.

11:32 Hussein S.: and then, with the sales agent, what

11:35 Passion C.: US dollar.

11:37 Hussein S.: yeah, us And then with us sales agency, that's been live for the past three months, we've done around 90k, in revenue and three months or actually in profit. Yeah, and probably in the past three months.

11:49 Passion C.: How people find you?

11:52 Hussein S.: Okay, one, I have a huge network in the sales community. And

also I've been in the space. I've been networking with a ton of guys. I have a ton of mentors who basically helped me network. so, That usually it's mostly refers like I signed with the marketing and info agency, we signed deals up to 100K every three months, retainers rather than aiming for the like low, two to five ticket deals.

12:21 Passion C.: And you are in the face, right?

12:23 Hussein S.: What?

12:25 Passion C.: Where are you based?

12:27 Hussein S.: I'm based in Lebanon, but my entire teams in the US,

12:28 Passion C.: oh, Okay, okay, got it. Um, For the South Agency that the closing training one. What's the name of it? Because I couldn't really get a hole because you have a Instagram

12:40 Hussein S.: What's the word?

12:42 Passion C.: The Selling the sales coaching agency.

12:45 Hussein S.: Yeah.

12:45 Passion C.: Like you have a school, like how do you trend people? Is it a school community?

12:49 Hussein S.: okay, so we opened up with a sales coach, who I work with, he has his own school community where where we are a part of so we sent guys his way and then, if guys need one-on-one training like on a daily basis, then we have one of our head coaches train them

13:08 Passion C.: Okay. Okay, got it. I think for us right now because We have a solid client base so I don't think offer it's our man issue. It's

13:20 Passion C.: actually getting very good quality culture and then we can grow and learn with them. So that's why the commission it's kind of competitive because we're not just looking for because, you know, like we're both genders, like, I don't know, you don't know me. I don't want to find someone like that's for like, short to

13:35 Hussein S.: Yeah, definitely.

13:37 Passion C.: relationship because You know, I got like so many arrested.

13:41 Hussein S.: Wait, what did you say?

13:42 Passion C.: Despacito. I didn't want like anything like very short-term relationship. Because I got a lot of resumes CDs, you know, videos from like everyone but I think. For us to reach our second goal this year. I'm looking for

someone can stay with

14:05 Passion C.: the company for longer. So I was just wondering if there's any successful case that you place someone in the company and then how, how were they doing?

14:17 Hussein S.: One of the closest I place, let me tell you how long ago. Once up. around one month and one week ago, we placed them on over, he's a closer, he a few days ago, he sent me a message, he closed, three 8.5 K deals at 15% commissions in one day, and then his sales, I mean the offer owner booked him a trip to South America of airbnb fully covered

14:53 Passion C.: Yeah, that'll be. That would be awesome. Because for us, like we usually travel to the Philippines, sometimes it's a year. I don't know what happened to my camera again. Sorry I'm not a very character only. Yeah, I think. And what was like the criteria for you to evaluate, you know, where you want to place them.

15:25 Hussein S.: Okay. It's based on their past experiences if they have and then Based on their interests and then if they're good with anything and I see that they are coachable and they work in any environment, then I just send them a few different opportunities. They tell me that, yes, I want to work on there and then I connect them.

15:45 Passion C.: Okay. And for the one we are talking for our company, our business. Do you have any good candidate in your mind?

16:00 Hussein S.: Um, I have a spreadsheet right now around 8:39 guys and girls I do have a few. Yes. And you told me they'd be working us times, right?

16:12 Passion C.: so, For us, it's like 60% our client. So I'm trying to work on my camera. I'd like CC person in the States and then 40% of Australia.

16:23 Hussein S.: Okay, I could get you.

16:25 Passion C.: Yeah.

16:27 Hussein S.: So I want to figure out what you think is best for you guys is it just send you a few closes and setters or do you want someone to come in? Build out the entire sales team, train them and then put them into work.

16:42 Passion C.: um,

16:45 Hussein S.: And I'm gonna be honest with you. One is a free and one is paid.

16:50 Passion C.: Yeah. I think I wouldn't be like 100% being no for the second

one, but just because we have a proven process, it's been working. So, I don't know if it's we have a proven process that's been working. So I'm

17:04 Hussein S.: You have what? Nothing. And

17:09 Passion C.: not sure if it's 100% necessary for us to change that when we are trying to grow the company, you know, you know, you know I'm saying, So I'm not like 100% say, no, but just at this moment. I'm not sure if our team will take it. Well, like, oh, We are starting a new offer and then building a different way, you know.

17:37 Hussein S.: And how much you guys currently doing per month?

17:40 Passion C.: We're roughly 2.5 million a year. So, that's 250.

17:47 Hussein S.: To open five. Yeah, around that. Um, and how large is your team right now?

17:56 Passion C.: We have. So this is a parent company. We have a company called Francescaeling and then Jarvis is part of this parent company in total. I think we were fully have like 50 to 60. Because Francesca Kelly, it's that we actually help with above big restaurants in the state would go website for them for them to do merchandise, you know,

18:18 Hussein S.: He?

18:22 Passion C.: ship everything for them and manage to website. It's very easy.

18:26 Hussein S.: Got you got here?

18:27 Passion C.: so,

18:31 Hussein S.: yeah, so what I can do here, the best way I can help I guess it's probably just send you a long videos and the summary of the experience and

18:44 Hussein S.: then the role And then you can basically contact the market, contact you guys with them through Whatsapp group chat. Then from there, You can let them know about the offers, send them the details, then if they decide to work with you, then you'll have them. Onboarded if not, then I can send you a few different people. And quick question. What is the Ote for this status and closes? What were the previous reps doing per month?

19:19 Passion C.: Well sorry, what's all PE?

19:22 Hussein S.: On track earnings. So what basically, What the projected to make per month?

19:29 Passion C.: What they are projected to make per month.

19:33 Hussein S.: Hmm.

19:34 Passion C.: And they were able to close. Let's see.

19:42 Hussein S.: What?

19:44 Passion C.: Sorry, just give me a second. I'm just, like doing a actual number.

19:47 Hussein S.: Mmm, got. But

19:55 Passion C.: So I think we're looking at five to 10K a month, that's the goal for them.

20:01 Passion C.: We are very open organization. So like all the numbers are transparent, if they don't have enough leads, we can always work on some way. Yeah, so I think we're looking for someone who can really raise your concerns. And if there's any, you know, Unclear, they can always like let us know. That's some kind of like some the personality we're looking for.

20:30 Hussein S.: Okay. Okay. And this closes. Would they be the ones also reaching out and booking the calls? Or they don't want this handling, the calls where the appointment setters are booking. The calls for them.

20:41 Passion C.: so that's the question because if they are the closer, can they just like handle setting calls and the, you know, close at the same time, Or do we need a closer?

20:53 Hussein S.: Well, most most people yes, but in the sales space right now, it's divided into

21:01 Passion C.: Yeah.

21:01 Hussein S.: two this and closes where setters are the ones who do the talking and the messaging before getting the prospector that leads on the call with the closes, then the closest would come in. Just have the call and then close the deal and collect the cash.
