

JARVIS

**We now live in a
remote-first world.**

Every business is racing to unlock the benefits of virtual talent.

The reasons are obvious.

Global pool of **skilled**
Virtual Assistants

Untapped operational
talent beyond your zip
code

Proof: remote ops can **scale**
cheaper, faster, and better

But building a remote backend is hard.

How will you...

Build a team of reliable VAs to handle follow-ups, inbox, and admin tasks?

Vet remote talent without drowning in interviews?

Keep everything compliant, organized, and visible?

The old solutions weren't built for this.

✗ **Freelancer platforms:**

too many choices, no real vetting. You waste hours filtering, messaging, interviewing... and still end up unsure

✗ **Outsourcing firms:**

Expensive retainers, no transparency, poor flexibility

✗ **DIY hiring:**

slow, risky, and time-consuming.

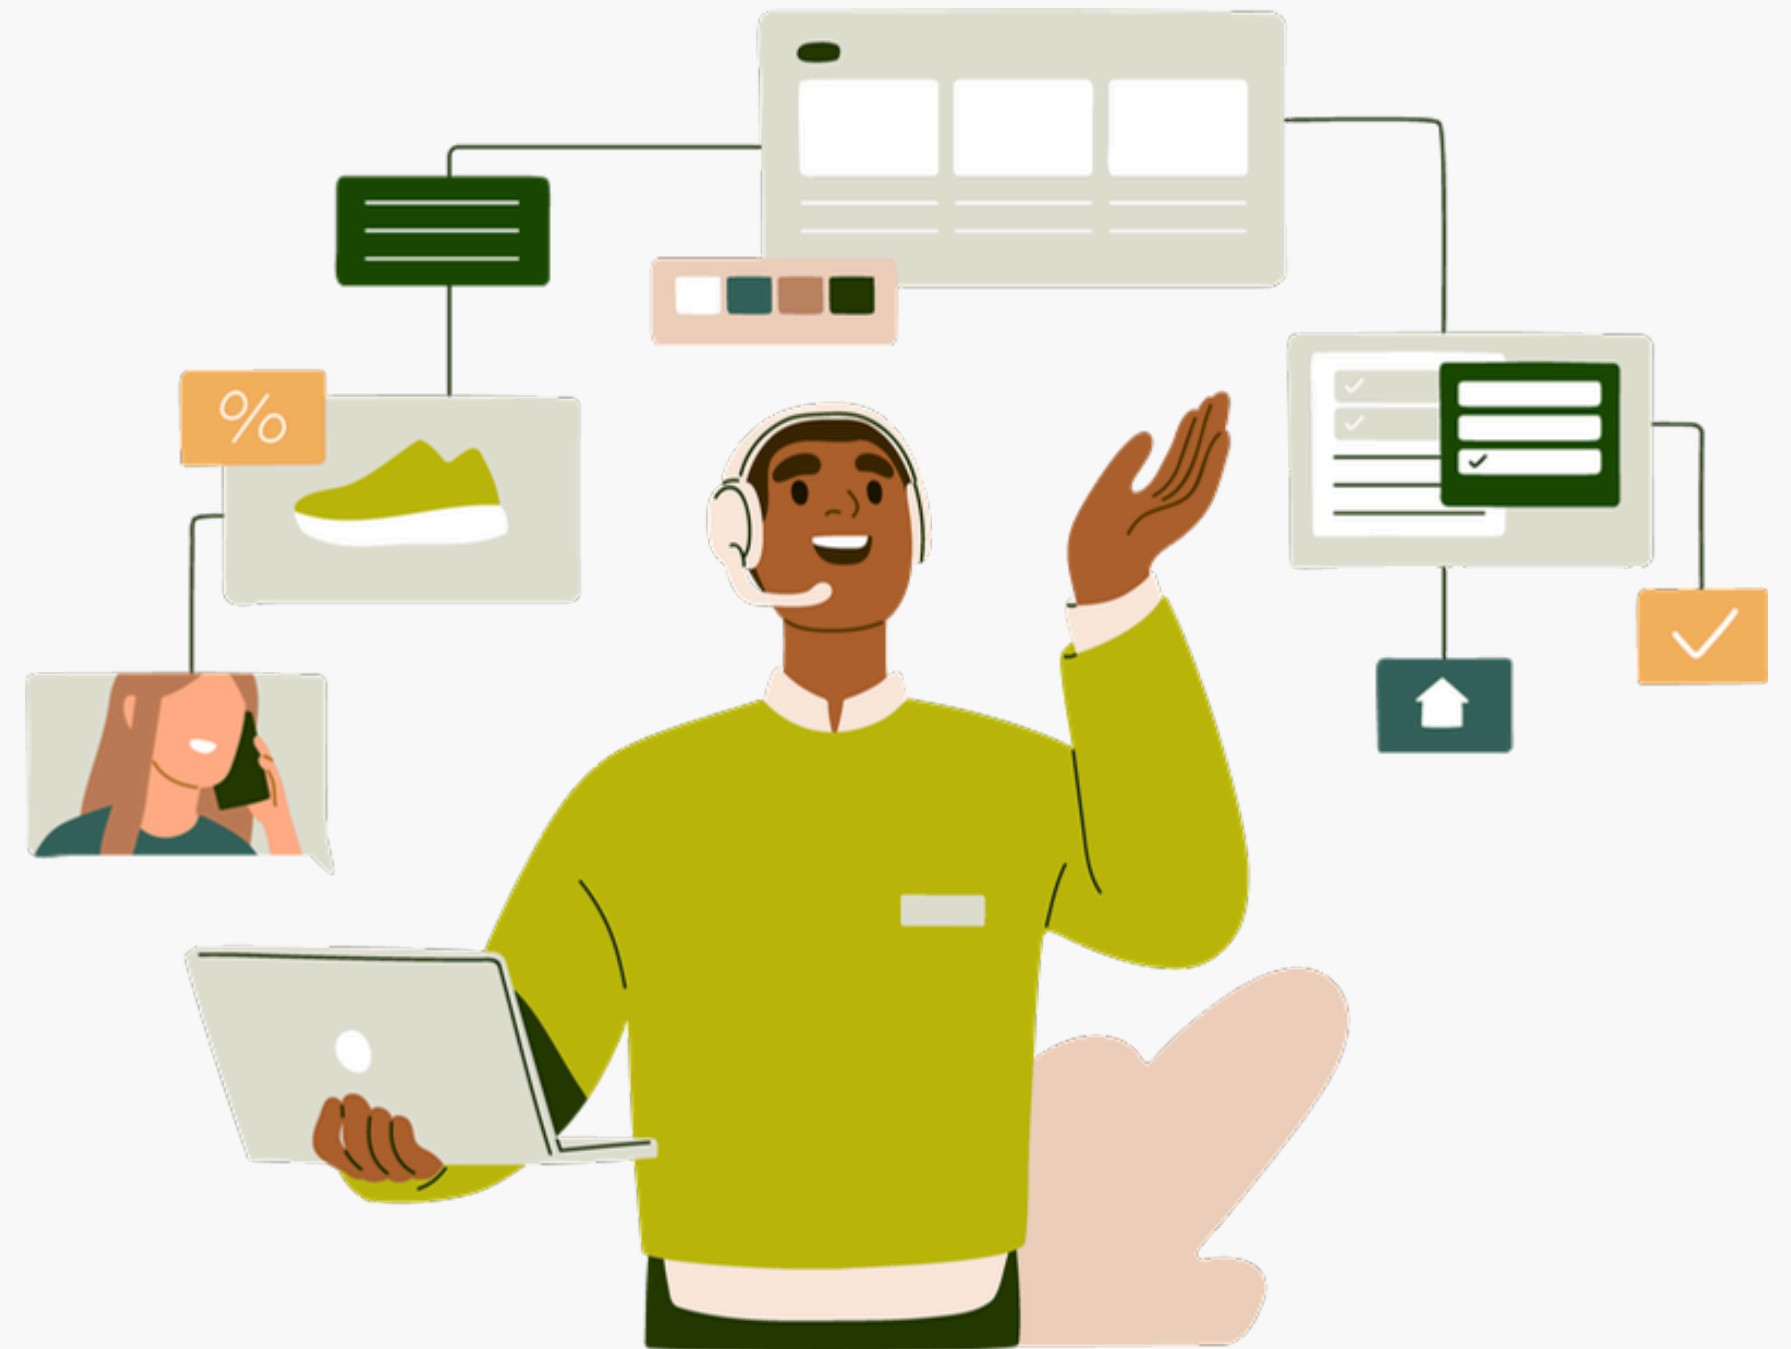

You spend weeks writing job posts, interviewing, onboarding, only to realize they're not the right fit.

We asked a simple question: What if you could **replace** all of that with one simple system?

Platform to...

- ✓ **Source Virtual Assistants with ecom experience**
- ✓ **Vet them through real-world tests**
- ✓ **Match you based on your workflows**
- ✓ **Delegate to virtual assistants trained to build SOPs**
- ✓ **Remove the busywork of hiring, payroll, and day-to-day oversight**

Jarvis combines
system focused
talent + workflow
systems to give you
operational leverage.

Your needs → Jarvis platform → Your VA(s)

/month hours/month of owner bandwidth recovered

From Inboxes to Inventory Jarvis VAs handle:

Customer service, returns, follow-ups

Supplier comms & purchase orders

Scheduling, inbox triage, call prep

Influencer & collab outreach

Why do Jarvis VAs stick around, show up, and treat your business like their own? Because we treat them like people, not placeholders.

- ✓ Full-time roles, not gig work — so they're committed
- ✓ Built-in support, check-ins, and mental health care from our VA success team
- ✓ Culture of care: bonuses, milestones, and recognition that builds loyalty

Our advanced vetting engine filters for performance, not just profiles.

Every Jarvis VA goes through a multi-layered vetting process so you **don't waste time** on “maybe” hires:

Tech Skills Assessment

Tools, workflows, admin systems. We test them, not just ask.

Personality Profiling

Culture fit, communication style, decision-making patterns.

Typing & Responsiveness Test

Speed, clarity, and tone under pressure.

Work History Validation

No fluff. We verify real outcomes, not just job titles.

By the time they reach your team, they're already proven and ready to work.

Our deep-matching engine finds your **perfect VA**— and backs it up with data.

Tell us what's draining your time...

"I need a VA who can handle **client follow-ups, inbox triage, vendor calls**, and make sure nothing slips through the cracks. Bonus if they've managed **CRMs** and can handle some light **SOP building**. They should be proactive — not wait to be told."

...and we'll show you the exact fit.

Meet Maria:

- ✓ **6+ years** managing executive inboxes & calendars
- ✓ **Proactive** follow-up workflow experience (calls, email, CRM updates)
- ✓ Familiar with **Asana, ClickUp, HubSpot**, and **Notion**
- ✓ Scored **4.9/5** on reliability, initiative, and communication in prior placements
- ✓ Strong **written tone, clear communicator, zero micromanagement** required

After the match, Jarvis makes delegation easy, accountable, and **stress-free**

Communication

VAs work in your time zone, inside your tools, with clear SOPs and check-in systems.

→ No chasing.
No misfires.

Compliance

We handle all HR, payments, and contractor logistics — so you don't have to.

→ One invoice.
No paperwork headaches.

Visibility

You'll see exactly what's getting done, when, and how — with optional daily summaries.

→ Transparent productivity, zero micromanagement.

We're here to help you unlock the untapped power of global operational talent — so you can lead, grow, and breathe again.
