WHO WE ARE

Most VA agencies send you a warm body. Jarvis sends you a pre-trained virtual assistant paired with custom AI automations, so your pipeline, inbox, and calendar run without you.

We handle the hiring, training, vetting, and tech stack. You just show up to the calls that matter.

Our Jarvis Specialists are matched to your exact business needs, and trained on your workflows before day one. If the fit isn't right, we replace. No questions. No delays.

A dedicated VA + AI system built around your business, so you can focus on growth, not operations.

**Together,
we scale.**

WHAT YOUR JARVIS SPECIALIST TAKES OFF YOUR PLATE

Choose the role — we handle the hire, training, and results

JARVIS

SOCIAL MEDIA MANAGEMENT

- Content scheduling & publishing
- Caption writing & hashtag research
- Comment & DM responses
- Story creation & engagement
- Analytics reporting

YOUR LIFE, AFTER.

Your brand posts every day. You haven't touched your phone for content in 30 days. The audience grows. You don't even notice.

ADMIN & EXECUTIVE SUPPORT

- Inbox management & triage
- Calendar scheduling & reminders
- Travel booking & logistics
- Document prep & data entry
- Meeting notes & follow-ups

YOUR LIFE, AFTER.

You open your laptop. Inbox is clean. Calendar is full. Every follow-up is sent. You think — your Jarvis Specialist executes. Every single morning.

OPERATIONS & PROJECT MANAGEMENT

- SOP documentation & systems building
- Team coordination & task tracking
- Vendor & contractor management
- Pipeline & CRM maintenance
- Weekly KPI reporting

YOUR LIFE, AFTER.

The business runs without you in it. Deadlines don't slip. Nothing falls through. You stop being the bottleneck and start being the CEO.

BOOKKEEPING & FINANCE SUPPORT

- Invoice tracking & accounts receivable
- Expense categorization & receipts
- QuickBooks / Xero data entry
- Weekly P&L reporting
- Vendor payment coordination

YOUR LIFE, AFTER.

P&L lands in your inbox every Friday. You always know your numbers. Nothing gets missed at tax time. You make decisions with data, not gut feelings.
